

Version July / 2008

Dear Sir or Madam,

EPSILON has introduced the new product range for the first time on the this year's KWF-Tagung in Schmallenberg (Germany). The new crane generation *EPSOLUTION* was of high interest for the customers. The KWF-Tagung 2008 was without doubt a very big success. The complete product range was presented on an area of 800 m² to 43.000 visitors. The new models are available from August 2008.

The EPSOLUTION crane generation is a continuation of the successful introduction of the OFF ROAD crane range at the Interforst 2006. Experiences of the ON ROAD crane range of the last eight years, highlights of the OFF ROAD range as well as numerous suggestions of the practice slipped in the development of the new ON ROAD timber cranes and RECYCLING cranes.

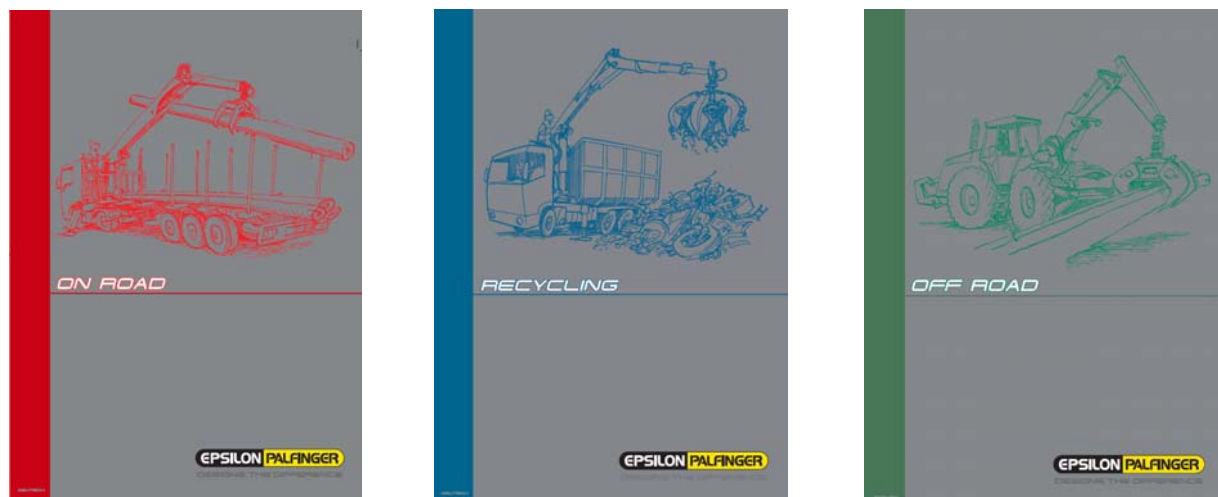

- ◆ **EPSOLUTION.** *solution-oriented crane range with top performance*
- ◆ **EPSCOPE.** *Optimized boom system with even more easy service*
- ◆ **EPSLINK.** *Intelligent connection of crane boom and grab*
- ◆ *Extensive standard equipment*
- ◆ *Highest flexibility and individuality due to modular construction*
- ◆ *New model-classification for better overview (M-Q-models)*
- ◆ *Intelligent solutions for **ON ROAD, OFF ROAD and RECYCLING***
- ◆ *EPSILON consolidates its lead.*

Version July / 2008

Brochures *EPSOLUTION*:

The new brochures for the M- and Q-models are available in German, English, Italian, French, Spanish and Russian.

We ask you to get them at your general agent or download online at the products.

Due to the complexity we will make one further brochure in future for cabin cranes. For the crane models of the future C-class and S-class we still have to use the brochure about the PLUS-range - concerning the crane models: E65L/Z, E75L/Z, E190LS, E250L/Z, E260L and E380L.

With best regards,

Your

EPSILON PALFINGER
