

Open Doors Days 2009 at Epsilon

At the weekend from the 15th until the 17th of May the already second Open Doors Days took place at the headquarters in Elsbethen.

About **700 visitors** from over **25 countries** among from Australia, South Africa, Russia, Kuwait and Israel were counted.

Our highlight was along with the grand opening of our new office building the presentation of our 4 new cranes "**Comunal**", "**TripleL**", "**TripleZ**" and "**TipperZ**".

Beside the On Road and Plus series the last revised OFF Road models were examined carefully. Furthermore the new patent pending "**Easy Fold**" system was introduced, which folds a Z-crane with the function "raise knuckle boom" automatically.

Good atmosphere dominated the demonstration ground. A brand new logging crane **E250L95 Plus** was presented by the company Transbois, from the French-speaking part of Switzerland. The company Ebner from Faistenau demonstrated the short timber crane **M120Z96 Epsolution**.

A **M110L80V Epsolution** from the recycling series was exposed on a vehicle from the company AVE in Salzburg. The programme for the exhibition cranes was completed by two **M70F101** each on a chipper of the companies Jenz and Eschböck and a **S110R80** from the OFF Road series built on a Skidder of HSM.

There was also the possibility to prove the own competence and in the production hall. Everybody was able to operate 6 different crane types. Supervised from Epsilon's qualified employees it was even possible to try various types of controls such as the radio remote control with platform, cabin control, back mounted and lateral top seat.

The technical discussions in the entertained exhibition hall last finally far into the evening.

We thank all visitors for your attendance!

YOURS EPSILON TEAM

The new Epsilon „Comunal“ **C70G76**

The CTL timber crane and the tree length logging crane were presented at great weather.

Some demonstrations (chipper, skidder) attracted a lot of prospective customers.
